Hi Cindy,

We've been coordinating this meeting through Alberto. I think all of the details / attendees are still being worked out. The original idea was for the RLs from the research units involved in fish waste research to meet with private sector people in Juneau and Anchorage. Because of availability, some of the RLs are designating substitutes. Maybe Alberto can give you more detail. Thx, Dave

Hi Dave,

I just learned that you were holding a tech transfer meeting in Juneau. I've got to admit, I'm curious why I wasn't invited (or even told about it). I'd appreciate your candor concerning what I should be doing to avoid being excluded in the future. Thanks.

Cindy
